MEMORANDUM FOR: INF Interdepartmental Group

FROM:

Chairman, Strategic Arms Monitoring Working Group

25X1

SUBJECT: Status of Soviet INF Systems

25X1

1. The attached report provides an intelligence assessment of the status of the Soviet missile systems and related equipment accountable under the recently-signed Intermediate-Range Nuclear Force (INF) Treaty. This report was coordinated throughout the Intelligence Community. Information on the status of Soviet forces and relevant activity acquired between 1 November 1987 and 31 December 1987 is emphasized. Additional reports updating Soviet INF-related activity will be issued on a continuing, monthly basis.

25X1

25X1

2. The intent of these monthly intelligence reports is to insure that the appropriate US policy organizations and the Congressional Intelligence Committees are apprised of relevant Soviet activities related to accountable INF missile systems during and after the ratification process. If recipients of this report have any questions or comments on its contents or format, please direct them to me at
